1. Please describe your qualifications for this office.

I have been an undergraduate student and received a bachelor's degree as well as a law student. I have worked in the community as a volunteer for environmental issues and an organizer for tenant's rights.

2. What are the top three issues facing CCSF, and what will you do about those issues.

It's a tough economy for those not in the technology field and it is hard for students to get jobs. I also have kept my on the fact that city college was getting its accreditation stripped. It's also extremely difficult for students to find descent housing.

3. What specifically do you propose to enable City College to remain accredited?

I feel that it could be beneficial for a young set of eyes to keep the San Francisco community college system guided in the right direction.

What will you bring to the table that's not already there?

I have been saddened by what I have seen, because I know what it's like to be student trying to improve ones self with limited resources. I feel that I could bring a fresh perspective to difficult problems and provide a brighter future for those struggling.
